

WinTech paint provides the highest level of balance between standard color ranges, performance specifications, economy and lead time. Our inventory of pre-finished material and painted to order standard colors provides exceptional value and on-time delivery.

2604 Standard Colors

Meets or Exceeds AAMA 2604 Standards

Anodized Match Paint Colors

Meets or Exceeds AAMA 2604 Standards

Color Anodized Finishes

Series 325 / 3200
Standard and High
Thermal Performance
Windows

1.) The paint and anodize colors shown are not actual paint or anodize. These samples represent the paint colors as closely as possible within the limitations of printed color-chip reproduction. Actual coatings and anodize samples are available on request

2.) All WinTech standard paints are powder coat versions of the colors shown. Custom powder colors in AAMA 2603, AAMA 2604 and / or liquid versions including AAMA 2605 paints, metallic colors and clear coated colors are available, but require extended lead times and costs.

Wintech's series 325 and 3200 family of standard and high performance windows provide a wide range of thermal performance and configuration options that are well suited primary and secondary educational buildings and dorms, multi-family, assisted living and other institutional building applications. Both are fully tested by independent accredited laboratories. Along with many standard and custom finish and glass options, the 325 and 3200 is sure to be an economical solution to meet or exceed a wide range of project specification.

3200 Family

3200 Window Performance

Series / Configuration	AAMA Rating	Air	Water	Standard U Value	Optional U Value with Foam
3220 - Fixed Center Set	CW-PG60	0.03	12 psf	0.34	N/A
